### **School Description**

Waite Middle School is about collaborative teaching, Common Core preparation (Language Arts, Math, Social Science and Science). As a Professional Learning Community, teachers establish lesson sharing and lesson planning across the content areas.

Waite has established “Blended Learning” in language Arts, Social Science, and Science, with an emphasis on English Language Learner classes. ELL’s develop their skills using a Chrome Book lab in the classroom to advance skills in listen, speaking, reading, and writing.

Waite is a Comprehensive Middle School Magnet using career path education such as Art, Graphic Design, Robotics, Video Production, Video Game Design, Project Based Science classes, Introduction to Technology, Keyboarding, Music, and Community Service to provide opportunities for all students. We will provide all students every opportunity to reach their potential or peak their interest in these fields.

Cal State Fullerton Master Teacher Fellows continues to support Waite by augmenting math and Science classes with student teachers. CSUF provides up to 6 potential mathematics and Science teachers with an early field experience at Waite Middle. Combining CSUF and the current staff at Waite have strengthened the department that has shown consistent improvement over the last 5 years.

Technology is used school wide to support our “Digital Natives”, students interested in advancing their skills using the computer and internet services. Our science classes use a project based curriculum in the 7th and 8th grade, this includes standards based instruction that allows our students to take responsibility for their learning and supports higher level thinking skills. Smart boards are currently used in 12 classrooms across campus. Teachers are receiving training during the summer and on 2Wednesdays of each month. Math has moved forward by incorporating technology (i-Pass and i-ready) to provide intervention for struggling students. We offer a Web-based program to improve the skills of students in math in a lab environment. Our library / Media center is second to none with current materials and novels for student check out. Our gifted and talented population has increased and we are providing higher levels of rigor and class programs to support their needs

RTI support includes enrichment classes for Reading, Social Science, Science, and Math. Also supporting the need for interventions includes Saturday Academy, Saturday school, tutors, after school GATE program and Bilingual Aides.

Waite Middle School’s “House” program provides all 6th, 7th, and 8th grade students the opportunity to benefit from each other by joining each other in class to mentor and support an increase in student achievement. In the “House Program”, students are taught a designed curriculum created by teachers and taught school wide. AVID essentials are used to focus on good teaching strategies in the “House” program. The WEB Program supports our new 6th grade students by paring them with the 8th grade and mentoring them throughout their school day. When needed the Peer Mediation program is used for students to feel comfortable with each other and willing to resolve social problems in a designed and structured way.

We are excited because our API continues to grow and our English Learners continue to make academic progress. Our challenges are to continue the high level of support for all students and translate it into academic achievement. We continue to support our English Learners by leveling classes to support their growth and provide a trained highly qualified adult in each class. We continue to have a zero period of classes that support academic achievement and social development for all students. This includes I-Pass, i-Ready Math and Reading, chorus, and band. We plan to continue to expand zero periods in the coming year to include the arts and sciences. It is a Great day to be a Panther!

### About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

### A. Conditions of Learning

#### State Priority: Basic

The SARC provides the following information relevant to the Basic State Priority (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

English Learners	52	49	94.2	12.2
Students with Disabilities	37	36	97.3	25.0

\* Science test results include CSTs, CMA, and CAPA in grades five, eight, and ten. The "Proficient or Advanced" is calculated by taking the total number of students who scored at Proficient or Advanced on the science assessment divided by the total number of students with valid scores. Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAAs divided by the total number of students who participated in both assessments. Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

### Opportunities for Parental Involvement (School Year 2016-17)

We have many ways for parents to participate in the life of our school, and we depend on parents to keep our programs running smoothly. We house a CBET class Monday through Thursday. Parents join our SSC, ELAC, and PTSA which works with administration to make Title I decisions and support decisions. Parents of English Learners are vital to our English Language Advisory Committee (ELAC) and to our outreach efforts on behalf of new families. Our PTSA works with teachers to support Back-to-School Night in the fall and Open House in the spring. We expect all parents to attend these events. Parent events with guest speakers are offered monthly to assist parents with their students' work. Parents help organize the eighth grade field trip, dance, and graduation party. They also help with dramatic and musical performances, sponsor yearly fund-raisers, and sell snacks and T-shirts at athletic events to help pay for uniforms. Parents are critical in making our parent seminars so successful. We always need new volunteers!

### State Priority: School Climate

The SARC provides the following information relevant to the School Climate State Priority (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

### School Safety Plan

School safety is an important aspect of our learning environment. We have a supervision team of six adults that monitors all activity on and around the school grounds, with a total of 20 hours per day of adult supervision. Our administrative team walks the campus frequently during the day to ensure that all students are safe.

All entrance gates are secure to limit entrance onto school grounds. However, the front gate is open to visitors and the community. All visitors are required to report to the main office prior to entering the campus to secure a visitor's pass. Visitors are not permitted to enter the school grounds without authorization.

Our safety committee surveys the campus to identify safety issues, to develop emergencies routines and procedures, and to order needed emergency supplies. Our safety plan is revised yearly and communicated to staff, students, and parents in meetings and assemblies. The plan is located at the school site and in the front office of the school. We hold drills monthly to practice safety procedures in case of an emergency in conjunction with the drills that are hosted by the district office.

**DataQuest**

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

**Internet Access**

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
