MISSION:

The mission of Charles Weber Institute of Applied Science and Technology is to prepare and educate students in a career field and/or a post-secondary education. This workplace preparation is focused upon our local economy and is designed to prepare students for our global society. A major part of our mission is to deliver and maintain high academic standards. Additionally, we strive to provide stimulating, challenging, and safe classroom environments that raise student achievement through an integration of state standards in our core and technical education classes.

VISION:

Weber Institute of Applied Sciences and Technology is a model career technical educational institution emphasizing a rigorous and relevant curriculum. As a small learning community, Weber Institute will graduate 21st-century thinkers who are prepared for a post-secondary education and apply their technical competencies in real-world situations.

Career Technical Education Programs

Stockton Unified School District's (SUSD) Career & Technical Education (CTE) program prepares students to be College and Career Ready through three main activities: Career Awareness, Career Exploration and Career Preparation. Once known as "Shop Class," Career and Technical Education (CTE) was once called Vocational Education and School to Career. Today's CTE is very demanding due to changes in the modern industry and a global economy. Simple hands-on skills are no longer enough to get a living-wage job. Today's workforce must have strong academic skills coupled with in-demand technical skills that go beyond just a high school diploma. This training includes continued learning at trade schools, apprenticeship programs, community colleges, and universities.

- Career Awareness begins in preschool through the primary grades (Preschool-5) and beyond. This is simply recognizing that there are jobs all around in our community and what those people do.
- Career Exploration begins in the Intermediate Grades (6-9) and continues for many years. This is where young people learn about their interests and abilities and explore careers related to the things they like to do. They develop an educational plan that will take them through a career pathway from school to the workplace.
- Career Preparation overlaps Career Exploration and begins in the 9th grade when students begin to select their courses in high school. The academic and "elective" courses they choose start to shape their college and career preparation. All schools offer the courses to graduate high school and most schools offer at least one formal career pathway.

At Weber for the 2019-20 school year, we offer pathways for Education, Patient Care, Software and Systems Development, and Systems Diagnostics, Service, and Repair. Information on individual courses available in our course catalog.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2019-20)

The main fact about textbooks that the Williams legislation calls for described whether schools have books in core classes for all students. The law also asks districts to reveal whether those books are what the California content standards calls for. This information is far more meaningful when along with the more detailed description of textbooks contained in our School Accountability Report Card (SARC). Here you'll find the names of the textbooks used in our core classes and their dates of publication.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

CAASPP Test Results in ELA and Mathematics for All Students

Grades Three through Eight and Grade Eleven

Percentage of Students Meeting or Exceeding the State Standard

Subject	School 17-18	School 18-19	District 17-18	District 18-19	State 17-18	State 18-19
ELA	34	73	28	31	50	50
Math	13	22	21	21	38	39

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Cells with N/A values do not require data.

Note: This is a placeholder for the California Science Test (CAST) which was administered operationally during the 2018-19 school year. However, these data are not available for inclusion in the 2018-19 SARC posting due February 1, 2020. These data will be included in the 2019-20 SARC posting due February 1, 2021.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

Opportunities for Parental Involvement (School Year 2019-20)

Weber Institute recognizes that parents and the community play an important role in the success and education of their students. Many schools have established partnerships with community businesses and organizations to increase parent participation. Weber offers several opportunities and programs to encourage parent involvement including School Site Council, Parent Coffee Hour each month and volunteer opportunities. The current contact for parent involvement is the principal, Dr. Johnson Leon, or counselor, Mrs. Pacheco.

- English Language Learner instruction and support (ELD)
- Parent Resource Center
- Parent/Student conferences when possible
- School Site Council (SSC)
- The school believes that the parents and guardians can support the learning environment of the school and their students by:
 - Monitoring student attendance
 - Monitoring completion of student homework
 - Monitoring and regulating television viewing, gaming and time spent online in social networks such as Facebook, Pinterest, and YouTube
 - Participating in the decision making process in school organizations and committees
 - Planning and participating in activities at home that support classroom learning
 - Volunteering in the classroom
 - Parents and community members who wish to become a part of the school community and participate should call the school's office.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan

Weber Institute places a strong emphasis on ensuring the safety of all students and staff members. The school's custodial team ensures the school facilities are in compliance with all federal and state health and safety regulations. Each year a deep cleaning process occurs during a close of school, either during the summer or other extended breaks. In the event of a facility plant emergency, the principal notifies appropriate site and district personnel to resolve the emergency and safely secure or evacuate the students, based upon the site and district emergency preparedness plans. A site review with the district Internal Evaluation Instrument (IEI) occurs annually. A comprehensive School Safety Plan, which is annually updated and approved by the School Site Council, helps to provide a secure, peaceful and clean environment for the school community. The school's Readiness and Emergency Management plan identifies procedures to follow during emergencies and natural disasters. Emergency drills are conducted on a regular basis. Every effort is made to ensure students are monitored while on campus throughout the school day. Security, teachers, site administrators and school staff provide supervision for students before and during school. All visitors must sign in at the office and receive proper authorization to be on campus, and must display their passes at all times. Our school safety plan is revised on a yearly basis.
