About the SARC

Every school in California is required by state law to publish a School Accountability Report Card (SARC), by February 1 of each year. The SARC contains information about the condition and performance of each California public school. All data are reported for the 2012-13 school-year, unless otherwise indicated. For more information about SARC requirements, see the California Department of Education (CDE) SARC webpage at www.cde.ca.gov/ta/ac/sa/. For additional information about this school, please contact the school administration at (510) 895-7944.

School Description

Principal's Message

James Madison Elementary School is on the move! With Common Core State Standards on the horizon, our staff is working hard to continue prepare our students for success now and in the future. Common Core Standards are reinforcing our priority to create successful experiences for every learner. We have always celebrated each student's creativity, supported and promoted high achievement while inspiring their love of learning.

James Madison School recognizes, celebrates and teaches to the cultural, linguistic and racial diversity in all learners. We nurture and develop parent leaders and family partners to work collaboratively with the school and district. We want to thank the staff, families, but mostly the children who continue to learn with their hearts, minds and bodies. Our school is also home to four classes of amazingly-abled special education students. We are proud to support the needs of all students and foster the understanding of all differences as we prepare students for success in the world.

District Vision Statement

The mission of the San Leandro Unified School District is to educate students to achieve and demonstrate academic excellence and become confident, collaborative and competitive in a global society, by utilizing state of the-art technologies and innovative teaching strategies within a well-maintained, secure learning environment, in a region rich in heritage and diverse in culture, where we value our traditions while welcoming change.

School Vision & Mission Statement

James Madison Elementary serves nearly 400 scholars who represent a community rich with culture, language, and diversity. Our creative and energetic staff continues to work collaboratively with parents and the community to create experiences that foster an excitement for learning. We focus on inspiring each child to succeed. We believe that looking at student achievement through a lens of equity will allow all students to reach their potential. Learning will reflect the past, reinforce the present, and help to anticipate a future that has yet to be invented. We understand that the development of individual character and group responsibility is created through instructional programs, community partnerships, and best practices.

It is the vision of James Madison Elementary School to understand that the success of every student depends on developing a positive attitude, developing usable skills, and acquiring knowledge in order to reach goals now and in the future. It is our daily mission to inspire learning by creating experiences that help each student reach their potential.

District Profile

San Leandro Unified School District is located in the City of San Leandro, which is situated 20 miles southeast of San Francisco. San Leandro is a friendly and diverse city with a colorful heritage and numerous cultural amenities including a 450-berth Marina, two golf courses and a large community library center. San Leandro is well-known for its quiet, well-defined neighborhoods full of charming and unique older houses on tree-lined streets. San Leandro residents are proud of both their neighborhoods and their city, which can be seen in their active involvement in the city's numerous neighborhood and homeowner's associations.

Opportunities for Parental Involvement

Our success is built on a foundation of strong parent and community involvement. We have an active Parent Teacher Organization that plans and funds school wide events that provide the climate to celebrate their family, culture and history as a community while harnessing the energy and resources to ensure student success.

Our award winning parent facilitator program trains and employs parent leaders to strengthen the school to home to classroom connection. The facilitators create connections from the classroom to the home in the families primary language. This program has helped bridge the language and cultural differences that often keep parents from understanding standards, curriculum, instruction and assessment. They also create opportunities to access programs and resources to support their children. Our goal is to create and educate empowered parents that can navigate and advocate for their children now and throughout their career in public school.

James Madison Elementary School actively develops partnerships with local businesses, community organizations, and the "SLED" San Leandro Education Foundation.

School Safety Plan

This section provides information about the school's comprehensive safety plan, including the dates on which the safety plan was last reviewed, updated, and discussed with faculty; as well as a brief description of the key elements of the plan.

The safety of students and staff is always the first concern at James Madison Elementary School. The district supports our school with policies and regulations for compliance with all laws, rules, and regulations pertaining to safety, hazardous materials and state earthquake standards. The Comprehensive School Site Safety plan is updated annually by the principal and approved by the School Site Council. The Safety Plan was last approved in February 2013. The School Site Safety Plan outlines all emergency procedures. Fire and earthquake drills are conducted on a regular basis throughout the school year. The school principal participates on the District Safety Committee and has been a speaker at state conferences pertaining to creating and maintaining safe schools.

To ensure student safety, staff members supervise students at all times before and after school, and during recess and lunch. Any visitors to the campus are required to check in at the school's office and wear the proper identification badge at all times.

School Facility Conditions and Planned Improvements (School Year 2013-14)

This section provides information from the most recent Facility Inspection Tool (FIT) data (or equivalent), including:

- Description of the safety, cleanliness, and adequacy of the school facility
- Description of any planned or recently completed facility improvements
- The year and month in which the data were collected
- Description of any needed maintenance to ensure good repair

Year and month in which data were collected: 1/22/14

Age & Condition of Facilities

James Madison Elementary was originally constructed in 1956 and is currently comprised of 18 permanent classrooms, four portable classrooms, a library, a staff work and break room, a computer lab, a multiuse room, and a playground.

James Madison Elementary was closed from 1982 to 1998. The school was modernized in 2005, which entailed improving the parking area, adding four new portable classrooms, upgrading the technology service, playground renovations, adding a new ball field and drinking fountains. New windows were installed during the 2006-07 school year.

Cleaning Process

The principal works daily with one full-time and one part-time custodian to ensure that the cleaning of the school is maintained to provide for a clean and safe school.

Maintenance & Repair

District maintenance staff ensures that the repairs necessary to keep the school in good repair and work orders are completed in a timely manner. A work order process is used to ensure efficient service and highest priority to emergency repairs. At the time of publication 100% of Madison Elementary's restrooms were in good working order. The chart displays the results of the most recent school facilities inspection provided by the district. While reviewing this report, please note that even minor discrepancies are reported in the inspection process. The items noted in the table have been scheduled for repair or are in the process of remediation. With the passage of Measure B, modernization and renovation of the San Leandro schools has begun. For more information about Measure B, please visit the district's web site: www.sanleandro.k12.ca.us.

Deferred Maintenance Budget

The State School Deferred Maintenance Budget Program provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating/air conditioning, interior/exterior painting, electrical systems, and flooring. For the 2012-2013 school year, the district allocated \$164,000 for the deferred maintenance program. This represents .22% of the district's general fund budget.

School Facility Good Repair Status (School Year 2013-14)

This section provides information from the most recent Facility Inspection Tool (FIT) data (or equivalent), including:

Professional Development

This section provides information on the number of days provided for professional development and continuous professional growth in the most recent three year period.

Professional development at James Madison coordinated in conjunction with the district programs and site needs. James Madison Elementary School is collaborating with the Alameda County Office of Education in the Bay Area Performance Based Assessment Network. Staff development for beginning teachers is supported through BTSA (Beginning Teachers Support and Assessment) Support Providers. We are most proud of our ongoing work with the Teacher Action Research Initiative and Integrated Learning programs. District committees and action teams also allow for collaboration between teachers. Minimum days and release time assures ongoing personal and professional growth.

The district supports staff development through three Professional Growth Days each year. In addition our teachers are released to pursue ongoing growth and development to ensure they remain inspired and excited about teaching at James Madison Elementary School.

Core Academic Classes Taught by Highly Qualified Teachers

The Federal Elementary and Secondary Education Act (ESEA), also known as No Child Left Behind (NCLB), requires that core academic subjects be taught by Highly Qualified Teachers, defined as having at least a bachelor's degree, an appropriate California teaching credential, and demonstrated core academic subject area competence. For more information, see the CDE *Improving Teacher and Principal Quality* webpage at: www.cde.ca.gov/nclb/sr/tq/

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2013-14)

This section describes whether the textbooks and instructional materials used at the school are from the most recent adoption; whether there are sufficient textbooks and instruction materials for each student; and information about the school’s use of any supplemental curriculum or non-adopted textbooks or instructional materials.

Year and month in which data were collected: December, 2012

San Leandro Unified School District sets a high priority upon ensuring that sufficient and current textbooks and materials are available to support the school’s instructional program. San Leandro Unified School District held a public hearing on September 20th, 2011 and determined that each school within the district had sufficient and good quality textbooks, instructional materials, and science lab equipment pursuant to the settlement of Williams vs. The State of California. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home.

Textbooks are adopted by the Board of Trustees after review by teachers and parents according to the timeline established by the State of California. All district-adopted textbooks are State Board adopted and aligned to the Academic Content Standards established by the California Board of Education. The most recent textbooks as of January 2012 are illustrated in the chart.

Student Performance Data

The Standardized Testing and Reporting (STAR) Program consists of several key components, including:

- **California Standards Tests (CSTs)**, which include English-language arts (ELA) and mathematics (Math) in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science (H-SS) in grades eight, and nine through eleven.
- **California Modified Assessment (CMA)**, an alternate assessment that is based on modified achievement standards in ELA for grades three through eleven; mathematics for grades three through seven, Algebra I, and Geometry; and science in grades five and eight, and Life Science in grade ten. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations.
- **California Alternate Performance Assessment (CAPA)**, includes ELA and mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations.

The assessments under the STAR Program show how well students are doing in relation to the state content standards. On each of these assessments, student scores are reported as performance levels.

For detailed information regarding the STAR Program results for each grade and performance level, including the Percent of Students not tested, see the CDE STAR Results Web site at star.cde.ca.gov.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible. Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

California Physical Fitness Test Results

The California Physical Fitness Test (PFT) is administered to students in grades five, seven, and nine only. This table displays by grade level the Percent of Students meeting the fitness standards for the most recent testing period. For detailed information regarding this test, and comparisons of a school's test results to the district and state, see the CDE PFT webpage at www.cde.ca.gov/ta/tg/pf/.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest webpage at dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., state Academic Performance Index [API], federal Adequate Yearly Progress [AYP]), test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners.

Academic Performance Index

The Academic Performance Index (API) is an annual measure of state academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. For detailed information about the API, see the CDE API webpage at www.cde.ca.gov/ta/ac/ap/.

Academic Performance Index Ranks - Three-Year Comparison

This table displays the school's statewide and similar schools' API ranks. The **statewide API rank** ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state. The **similar schools API rank** reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

Federal Intervention Program (School Year 2013-14)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. For detailed information about PI identification, see the CDE PI Status Determinations webpage: www.cde.ca.gov/ta/ac/ay/tidetermine.asp.

Adequate Yearly Progress

The federal ESEA requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in ELA and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, can be found at the CDE Adequate Yearly Progress (AYP) webpage at www.cde.ca.gov/ta/ac/ay/.
